

JACKSONVILLE

Our Jacksonville, FL location features a state of the art silo facility in a newly renovated warehouse that offers over 600,000 square feet of ultra modern warehousing space and is a registered Foreign Trade Zone. Our advanced coffee processing facility offers customers the fastest rate of bulk handling for unloading, weighing, cleaning, and blending coffee in the U.S. The Dupuy Group's personnel is uniquely qualified to help determine the most cost-effective methods of handling, upgrading, and/or blending coffee to your exact specifications. While we specialize in handling food grade cargo, we regularly handle general cargo, and we will work with you on any solutions you may need.
